

	ENVIRONMENTAL POLICY	Doc No.	EBPC-POL-02
		Rev Status	01
		Issue Date	2017-01-01

Emera and its companies share the desire of our Board of Directors, customers, employees, and communities to enjoy the benefits of a sound economy in a healthy and sustainable environment. Emera Brunswick Pipeline Company is committed to meeting our business objectives in a manner which is respectful and protective of the environment, and in full compliance with legal requirements and Company policy.

In promoting these principles, Emera companies exposed to environmental risks in their daily business, business alliances, partnerships, or prospective ventures:

- Will make environment an integral part of decision making, as they pursue environmental performance, value to shareholders, and quality service to customers;
- Will develop, verify, and continually improve environmental management systems through strong leadership of management and employee commitment;
- Will use the Environmental Policy as the framework for setting and reviewing environmental targets and services;
- Will consider pollution prevention as the first option, in preference to control or clean-up;
- Will work with government and regulators in the development of technically sound and financially responsible environmental laws and regulations;
- Will work with employees and stakeholders to promote the most efficient use of resources and products and services; and
- Will communicate with stakeholders on environmental performance in an open manner.

EBPC require all employees to fulfill the environmental responsibility and requirements of their jobs at all times.

Ed Kacer
Accountable Officer
Emera Brunswick Pipeline Company
